HOW THE MODEL WORKS

The actual trading strategy, custody arrangement, risk controls, performance history, and source of any payouts should be disclosed transparently to participants.

IMPORTANT RISK DISCLOSURE

Digital-asset trading and copy trading involve substantial risk, including the possible loss of capital. The stated daily ROI figures are proposed/illustrative rates and are not guaranteed returns. Past trading performance does not guarantee future results. Participants should independently verify E2G.TECH's legal entity, DAO structure, smart contracts, custody arrangements, trading records, source of yield, withdrawal mechanism, and regulatory status before depositing USDT.
